

Special Issue

Polymer Nanocomposites for Energy Applications

Message from the Guest Editor

This Special Issue of the journal *Polymers*, entitled “Polymer Nanocomposite for Energy Applications,” aims to bring together papers focused on the applications of polymeric materials for energy applications. We aim to cover the fields of organic photovoltaics, organic light-emitting-diodes, organic thin-film-transistors, perovskite solar cells, dye-sensitized solar cell, organic/inorganic nanocomposite for energy application, flexible and wearable electronics, polymers in sensor application. A range of applications, from traditional to advanced, will be covered.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker
