

Special Issue

Polymer Materials in Sensors, Actuators and Energy Conversion II

Message from the Guest Editor

This SI is continuing on the subject of Polymer Materials in Sensors, Actuators, and Energy Conversion, in which 10 regular and 2 review papers had been successfully published. Polymer-based materials applications are playing a key role in these recent developing areas of smart matters and electronic devices. They cover the synthesis, structures, and properties of polymers and composites, including energy-harvesting devices and energy storage devices for electromechanical (electrical to mechanical energy conversion) and magnetomechanical (magnetic to mechanical energy conversion), light-emitting devices, and electrically driving sensors. Therefore, modulation of polymer-based materials and devices for controlling detection, actuation, and energy with functionalized relative devices is achieved.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (Polymers and Plastics)
