

## Special Issue

# Polymeric Materials as Drug Delivery Vehicles and Tissue Engineering Matrix

### Message from the Guest Editor

Dear Colleagues, Polymeric materials, being natural or synthetic, have been widely used in various modern biomedical fields, especially in drug delivery and tissue engineering. They can be used as the carriers to modify the mode or efficiency of the drug delivery or as the essential matrix to realize regenerative tissue engineering. This Special Issue titled “Polymeric Materials as Drug Delivery Vehicles and Tissue Engineering Matrix” will focus on the applications of polymeric materials used for tissue engineering or drug-delivery. Original papers, short communications, or reviews with the topics of development, characterization, and possible biological applications of polymer-based biomaterials, with applications in drug delivery and tissue engineering are welcome. We expected that by the accomplishment of this special issue, the academic and scientific communities and the readers of journal *Polymers* will gain cutting-edge knowledge and thoughtful insights into this field.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
