

## Special Issue

# Multifunctional Advanced Polymeric Films

### Message from the Guest Editor

Polymeric films and their composites are already widely used in the field of industry and medicine. Research on and development of new polymeric film materials are essential to support the growing interest in film technology. This Special Issue on “Multifunctional Advanced Polymeric Films” focuses on recent progress in the development of polymeric films, including but not limited to the synthesis, fabrication, modification, characterization, functionalization, grafting of polymer film, and their applications. Both research articles and reviews on the latest research are welcomed.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.
