

Special Issue

Polymer Fibers for Energy Storage

Message from the Guest Editors

The purpose of this Special Issue is to present recent advances in efficient fabrication, structural characterization, and low-light performance of polymeric fiber materials for energy storage applications. The areas of interest include but are not limited to synthesis, preparation innovation, microstructure design, energy storage performance improvement mechanism, and the application of polymer fibers in energy storage. The editors are pleased to launch this Special Issue and invite researchers to contribute their original research papers and reviews associated with “Polymer Fibers for Energy Storage”.

Guest Editors

Dr. He Wang

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
