

Special Issue

Selected Papers from 2018 SRPS & 2018 GISAS: Structure- Mediated Functional Polymers

Message from the Guest Editors

The Synchrotron Radiation in Polymer Science (SRPS) and Grazing incidence small angle scattering (GISAS) conferences have become major events in the polymer science community, as well as in the advanced materials science community, since being held in 1995 and 2009, respectively. The 2018 SRPS conference (<http://www.2018SRPS-GISAS.org/srps2018/>) is covering recent advances in the application of synchrotron radiation in all polymer science and advanced material areas: X-ray scattering, diffraction and reflectivity, resonant soft X-ray scattering, micro and nanofocus scattering and diffraction, infrared spectroscopy, absorption fine structure spectroscopy, and microscopy, neutron scattering and reflectivity, etc. On the other hand, the 2018 GISAS conference (<http://www.2018SRPS-GISAS.org/gisas2018/>) covers recent advances in GISAS theories and methods, as well as key issues of structures and their correlations to materials properties and device performances in advanced materials science and technology, nano-science and technology, energy science and technology, bio-science and technology, micro-, nano- and molecular electronics, etc.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of
Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
