

Special Issue

Structure and Properties of Polymer Composites

Message from the Guest Editors

This Special Issue aims to provide a forum for the discussion of recent advances in the investigation of the structure of polymer composites and structure-properties correlations. Authors are encouraged to submit contributions dealing with composites based on synthetic polymers and biopolymers, as well as natural or mineral micro- and/or nanofillers. The scope of this Special Issue includes a range of studies, from basic research on the composites' structure to comprehensive research on structure-properties correlation. This issue also includes studies on the life cycle assessment or environmental impact of polymer composites, as well as possible uses of such materials.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
