

## Special Issue

# Supercritical Fluids Technology for Polymer Applications

### Message from the Guest Editors

We introduce the promising applications of supercritical fluid technology to polymer-relating fields: (1) polymerization in supercritical CO<sub>2</sub>, (2) polymer processing such as foaming, coating, micronization, dyeing and others, and (3) chemical reaction of polymer including decomposition, modification, and others in supercritical fluid.

---

### Guest Editors

Prof. Takeshi Sako

Dr. Idzumi Okajima

Dr. Toshiharu Goto

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
