

Special Issue

Environmentally Friendly Bio-Based Polymeric Materials

Message from the Guest Editor

This Special Issue is devoted to environmentally friendly polymeric materials. Review articles, original papers and short communications of preliminary, but significant, results are welcome. The aim of this Special Issue is to encourage scientists to publish their experimental and theoretical results in as much detail as possible; there is no restriction on the length of the manuscripts. The full experimental details must be provided so that the results can be reproduced. The main topics of this Special Issue are as follows:

- Eco-friendly materials: related results and applications;
- Polymers of biological origin: synthesis and characterization.

Interdisciplinary and/or multidisciplinary papers are welcome.

Guest Editor

Dr. Ana-Maria Manea-Saghin

Research Center for Environmental Protection and Eco-Friendly Technologies, Faculty of Chemical Engineering and Biotechnologies, National University of Science and Technology Politehnica of Bucharest, Bucharest, Romania

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
