

Special Issue

State-of-the-Art Polymer Science and Technology in Taiwan (2021,2022)

Message from the Guest Editor

Polymer science becomes very important field in the many industrial laboratories of the world to understand the properties of new materials such as fibers, rubber, coatings, adhesive and plastics. In Taiwan, many research groups are working hard in different fields such as polymer physics, polymer synthesis, polymer physical chemistry, polymer characterization, covalent organic framework, conjugated polymers, self-assembly block copolymer and conjugated microporous polymers. Taiwanese polymer professors and researchers keep working with different industries companies in Taiwan for developing new products which used in the water treatment, medicine, pharmaceuticals, optoelectronic devices, and food areas. This Special Issue will give a great picture of state-of-the-art directions in the science and technology of polymers in Taiwan at the beginning of the 21st century.

Guest Editor

Prof. Dr. Shiao-Wei Kuo

Department of Materials and Optoelectronic Science, Center of Crystal Research, National Sun Yat-Sen University, Kaohsiung 804, Taiwan

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
