2D Material-Enhanced Polymeric Systems

Message from the Guest Editor

This Special Issue of *Polymers* on the issue of "2D Material-enhanced Polymeric Systems" welcomes contributions on multi-disciplinary topics, such as 2D material-based functional polymers and their composites, 2D material–polymer for sensors, 2D material–polymer interface studies, 2D material–polymer systems for electromagnetic interference shielding, and studies of 2D material–enhanced polymeric systems for potential applications in aerospace, biomedical, civil/environmental, and electrical engineering/science. Original research articles and reviews on both experimental and theoretical aspects are welcomed.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
