

Special Issue

Advances in Mechanical and Thermal Characterization of Polymer Composites II

Message from the Guest Editor

Following the success of the Special Issue of *Polymers* entitled “Advance in Mechanical and Thermal Characterization of Polymer Composites”, https://www.mdpi.com/journal/polymers/special_issues/D03UN7657W we are delighted to reopen the Special Issue, now entitled “Advance in Mechanical and Thermal Characterization of Polymer Composites II”. Polymer composites are a class of material manufactured by blending various types of reinforcement with the polymer matrix. Although these materials are utilized in a number of engineering applications, their mechanical and thermal properties need to be obtained in order to select a suitable application. Their properties can be characterized using both experimental and numerical modelling techniques, and this Special Issue will focus on publishing research works addressing these topics. About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
