

Special Issue

State-of-the-Art Cellulose and Renewable Materials

Message from the Guest Editors

This Special Issue, titled “State-of-the-Art Cellulose and Renewable Materials”, will focus on the latest scientific and technical advancements in cellulose and renewable materials. The 2nd International Symposium on Cellulose and Renewable Materials (ISCRM) provides an invaluable platform for connecting scientific and technical professionals in the field of cellulose and renewable materials. Topics of interest for this Special Issue include, but are not limited to, the following:

- Structure, modelling, and analytics of cellulose-based materials;
- Processing, application, and function of cellulose-based materials;
- Development and utilization of other biomass resources;
- Renewable materials.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
