

Special Issue

Polymeric Materials for 3D Printing

Message from the Guest Editor

This Special Issue, "Polymeric Materials for 3D Printing", is dedicated to exploring the latest advancements and innovations in polymer materials used in 3D printing. Polymers are at the forefront of 3D printing technology, offering unique properties such as flexibility, durability, and lightweight characteristics that are essential for various applications. This Special Issue aims to highlight recent breakthroughs in polymer formulations, processing techniques, and material performance enhancements. By addressing key challenges, such as mechanical strength, thermal stability, and environmental impact, we seek to advance the field and promote the development of more sustainable and efficient 3D printing solutions. We invite you to contribute your latest research (research articles/reviews) to this Special Issue.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
