

Special Issue

Advances on Assessment and Application of Polymer Composites

Message from the Guest Editors

This Special Issue aims to highlight the latest original results (experimental and numerical) in the assessment and new application of polymer composites in industrial fields, including design, service testing, damage evaluation, and repair. Original articles, comprehensive reviews, and communications of cutting-edge polymer composite technology are all acceptable. Non-exclusive topics include: numerical and experimental study of polymer composite mechanical behaviours; study on carbon fibre-reinforced polymer composites for multifunctional applications; research and design of self-healing polymers composites; numerical and experimental investigation on repairing polymer composite; non-destructive testing of polymer composites; study on polymer composite joint; thermal shock response of polymer composite; hygrothermal aging effect of function polymer composite; study on polymer composite-based lightweight design.

Guest Editors

Prof. Dr. Cheng Li
Prof. Dr. Qiaoxin Zhang
Prof. Dr. Ying Tie

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
