

Special Issue

Recent Advances in Polymers Adhesive

Message from the Guest Editor

This issue draws together the many aspects of the environmentally friendly polymer adhesive, from fundamental research and development work to industrial applications. This issue covers the following subjects- **structural adhesives** ; **non-structural adhesives** ; **special adhesives** ; **renewable and sustainable adhesives**; **new adhesives**: derived by chemical and biosynthetic routes, or obtained from biomaterials; **methods of testing**; **characterization of adhesives**: mechanical, physical, thermal, rheological, morphological, and others; **bonding interfacial interactions**; **environmental fate**: end products and intermediates of biodegradation; and other related topics.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
