

Special Issue

Advanced Polymeric Materials for Pharmaceutical Applications

Message from the Guest Editors

Polymers, whether synthetic or of natural origin, have played an important role in the development and advancement of pharmaceutical and biomedical applications. In this context, efforts are constantly being made to develop new polymeric materials having exceptional properties for use in medical applications (low toxicity, good biocompatibility, etc.). Within this framework, the current Special Issue (SI) aims to explore the various aspects related to the development and pharmaceutical/biomedical applications of modern advanced polymeric materials. The authors will cover all relevant sections including immediate and controlled drug release, implants, patches, medical devices, dental composites, diagnostics, etc. The scope of this SI is to provide an expert panel with a primary emphasis on addressing the needs and interests of both academic and industrial readers.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
