

## Special Issue

# Carbon-Based Materials and Their Composites: Synthesis and Application

### Message from the Guest Editors

We have been asked by the Editor of *Polymers* (MDPI) to coordinate a Special Issue entitled “Carbon-Based Materials and Their Composites: Synthesis and Application”. This Special Issue of *Polymers* comprises papers that cover a range of design, synthesis, development, modelling, mechanical, and manufacturing characteristics, as well as the application of carbon fibers and their composites. We believe that the reader of this Special Issue will benefit from the new ideas and results presented in these papers. You are welcome to submit your research works to this Special Issue.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
