

## Special Issue

# Cellulose Nanocrystals and Cellulose-Based Materials: Synthesis, Characterization and Application

### Message from the Guest Editor

Cellulose nanocrystals (CNCs) are one of most readily available renewable natural resources that can be obtained via mechanical and/or chemical processes from nature. CNCs attract attention from material scientists due to their unique combination of physical and chemical properties and show excellent potential in numerous application areas. This Special Issue will cover materials, characterizations, and applications concerning nanocellulose. Full papers, communications, and reviews are welcome. Submitted manuscripts should not have been published previously nor be under consideration for publication elsewhere. All manuscripts are refereed through a peer-review process. A guide for authors and other relevant information for submission of manuscripts are available on the journal's website.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
