

Special Issue

Polymer Blends and Injection Molding

Message from the Guest Editors

Injection molding is one of the most important mass production methods of plastic parts. The design and optimization of the molding process are important to obtain high-quality products. This special issue will focus on polymer material synthesis, characterization, injection molding design, simulation techniques, improving the process efficiency and enhancing product sustainability. It is with great pleasure that we invite you to submit a manuscript related to injection molding for this Special Issue. Remarkable contributions including research articles, communications and reviews from experts all over the world are welcome.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
