

## Special Issue

# Knotted and Catenated Polymers

### Message from the Guest Editors

Interest in polymer knotting and catenation is shared by chemists, physicists, biologists, and mathematicians. This Special Issue of *Polymers* is intended to present the research of scientists working in various fields but all having very keen interest in polymer knotting and catenation. This Special Issue will help to increase the visibility of the covered disciplines among a broad readership, and of individual contributions among colleagues in the field. We invite research articles, topical reviews, as well as communications, for this Special Issue on polymer knotting and catenation.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
