# **Special Issue**

## Advanced Multi-Functional Polymer Composites

### Message from the Guest Editor

The high performance and functionalization of polymer materials is an important research direction for polymer science and engineering. The preparation of polymer composites is an important way to realize the high performance and functionalization of polymer materials. Polymer composites are usually multiphase solid materials that are composed of a polymer matrix and other materials with different shapes, constituents, and properties. This Special Issue aims to cover the recent developments in advanced multi-functional polymer composites involving design, functionality, fabrication, and application. I would like to cordially invite you to submit a paper to this Special Issue.

# About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### **Journal Rank:**

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry )
