

Special Issue

Multi-functional Polymer Composites and Structures

Message from the Guest Editor

The 5th International Conference on Multi-Functional Materials and Structures (MFMS 2018) is being developed into one of the most prestigious international events to disseminate edge-cutting achievements on the fundamentals and applications of advanced multi-functional polymers and composites. As an inheritance of successful experience of the previous four MFMS conferences, MFMS 2018 is intended to integrate well-extinguished pioneering scientists and innovation-enriched young researchers, aiming to promote the burst of composite research and development. The main topics of this conference cover advanced and functional materials, composites and applications, bio-based materials, smart and intelligent materials and structures, processing and engineering of materials, fiber-reinforced composites and materials, etc., for specific applications. The editorial office of the journal *Polymers* (<http://www.mdpi.com/journal/polymers>) aims to publish a Special Issue of selected papers related to "Multi-Functional Polymer Composites and Structures", which will undergo a thorough peer-review process.

Guest Editor

Prof. Dr. De-Yi Wang

Head of High Performance Polymer Nanocomposites Group, IMDEA Materials Institute, C/Eric Kandel, 2, 28906 Getafe, Madrid, Spain

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
