

## Special Issue

# Overviews on the Progress of Polymeric Materials for Dental Applications

### Message from the Guest Editor

Polymeric materials are often present in dental restorations (direct and indirect), dental prostheses, therapeutic treatments or impression applications, with the first category prevailing in numbers. Each of those classes are of great depth in order to cope with the respective disease. Nanocomposites or hybrid biomaterials are cutting-edge products that have proven their usefulness in many cases, while photopolymerization or self-polymerization are dominant when it comes to curing. Clinical tests, monomer detection, biocompatibility parameters, and further standard compliance are indispensable in dental polymeric materials studies. Under those considerations, the current Special Issue aims to cover the major aspects of the recent developments in dental polymeric materials.

### Guest Editor

Dr. Evangelia Vouvoudi

Department of Chemistry, Aristotle University of Thessaloniki, 54124 Thessaloniki, Greece

### Deadline for manuscript submissions

closed (31 July 2022)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
