

## Special Issue

# Polymeric Materials for Food Packaging

### Message from the Guest Editor

Nowadays, the development of new food preservation solutions is essential to contribute to the global reduction of food waste. Food preservation technology improvements through the development of innovative food packaging materials that extend the shelf life of food constitute an alternative to traditional post-harvest practices, which are more aggressive, less sustainable, and have more risks to human health. Consequently, research about innovative polymeric materials for food packaging is a promising challenge to the food industry to improve the quality and safety of food products. This Special Issue on “Polymeric Materials for Food Packaging” is focused on original research and current review articles related to new food packaging materials. This Special Issue primarily covers the following topics:

- Nanocomposites;
- Multifunctional materials;
- Active packaging materials;
- Intelligent packaging materials;
- Biopolymers;
- Biobased materials;
- Biodegradable materials;
- Edible films and coatings.

Innovative and original research articles or reviews are welcome for inclusion in this Special Issue of *Polymers*.

### Guest Editor

Dr. Ana Beltrán Sanahuja

Analytical Chemistry, Nutrition & Food Sciences Department, University of Alicante, 03690 Alicante, Spain

### Deadline for manuscript submissions

closed (31 March 2021)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
