

# Special Issue

## Polymers and Drug Delivery

### Message from the Guest Editor

Polymers are commonly used for drug delivery; a hydrosoluble polymer can be used as a carrier for a drug to enhance its dissolution rate. Contrariwise, controlled or sustained drug release obtained with the aid of hydrophobic polymers can be used to extend the active principle release, reducing the number of administrations. In medicine, functional nanocarriers are used as basic elements of smart drug-delivery systems, ensuring the transportation of bioactive substances to designated tissues, cells, and intracellular compartments. This Special Issue shall gather original and review papers that mainly discuss achievements in polymeric drug-delivery systems. We hope that the papers of this Issue will inspire researchers in their own work.

### Guest Editor

Prof. Dr. Stanislaw Slomkowski

Department of Engineering of Polymer Materials, Centre of Molecular and Macromolecular Studies of Polish Academy of Sciences, 90-363 Lodz, Poland

### Deadline for manuscript submissions

closed (20 March 2023)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
