

## Special Issue

# Polymers towards Next Generation Energy Storage

### Message from the Guest Editors

In the last ten years, new polymer hosts have been identified, mostly polyesters and poly(carbonates). The immediate advantage is the high stability at positive potentials ( $\geq 4.3\text{V}$ ), a weak point of PEO-based systems that oxidize at  $\geq 3.9\text{V}$ , i.e., below the potential of operation of layered oxides. Polyesters and poly(carbonates), however, are not stable vs. Li metal, and double layer electrolytes have to be used. This Special Issue welcomes original research and reviews based on synthesis characterization or implementation of polymers or copolymers, composite polymers for electrodes; composite solid polymers electrolytes; and gel polymer electrolytes for next-generation energy storage.

### Guest Editors

Prof. Dr. Loïc Dupont  
Prof. Dr. Michel Armand  
Prof. Dr. Peter G. Bruce

### Deadline for manuscript submissions

closed (1 April 2022)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für  
Polymermaterialien und Polymertechnologie, Universität Potsdam,  
Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
