

Special Issue

Polymer-Based Solar Cells

Message from the Guest Editor

Today the world has serious energy problems due to various technological developments and the large energy consumption. In order to meet the exponential growth in energy demand, new energy systems must be developed to replace fossil fuels in order to limit CO₂ emissions to ensure a sustainable future environment. Solar cells have been studied for a long time as a next-generation energy system owing to their promise as an environmentally friendly and infinite energy source. The aim of this Special Issue is to highlight the progress and phenomena related to organic electronic devices such as photovoltaic cells, photo-sensors, thin film transistors, and light-emitting diodes, etc. We look forward to your contribution describing your recent promising research. We cordially ask you to consider submitting your next research paper or review article to this thematic issue. You could enjoy a **20% early bird discount** if you submit your paper by **30 June 2020**.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
