

Special Issue

Polymer/Graphene for Energy Storage Materials

Message from the Guest Editor

Graphene is a two-dimensional carbon allotrope with a hexagonal lattice structure. It has emerged as a promising material due to its exceptional physical and chemical properties, outstanding electric and thermal conductivity, and higher specific surface area. Thus, graphene-based materials have been widely and successfully used on energy storage applications. The aim of this Special Issue on “Polymer/Graphene for High-Performance Lithium-Ion or Sodium-Ion Batteries” is to highlight advanced research in the field of graphene/polymer composites for Li-ion batteries or Na-ion batteries, from fundamental aspects through to applications. The scope may include but is not exclusively limited to anode, cathode or solid electrolytes.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für
Polymermaterialien und Polymertechnologie, Universität Potsdam,
Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
