

## Special Issue

# Smart Textiles: Synthesis, Characterization and Application

### Message from the Guest Editors

The ever-growing demand for portable and wearable electronics has driven considerable interest in smart textiles. In recent years, the number of publications related to smart textiles has increased, suggesting the importance and impact of smart textiles in the flexible electronics field. This Special Issue aims to gather high-quality original research works and specialized review articles on the synthesis, characterization, and application of smart textiles to provide a comprehensive coverage of this dynamic interdisciplinary field.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.
