

## Special Issue

# Surface Chemistry of Polymers

### Message from the Guest Editor

It is my pleasure to invite you to submit a manuscript for this Special Issue on Surface Chemistry of Polymers. Suitable topics include the surface chemistry involved upon grafting of different molecules, in particular, biomolecules for improved biological response, tailoring surface chemistry by functionalization with new functional groups, methods for increasing the surface area such as nanostructuring, and basic phenomena of surface chemistry of polymers. Papers on surface chemistry of polymers or polymer blends containing nanocarbon are also welcome. The papers should include results on monitoring the surface reactions and finish by at least one method for surface characterization. Critical reviews are also welcome—though, in the case of review papers, it is desirable to draw correlations between treatment parameters used by different authors and resultant surface finish.

### Guest Editor

Prof. Dr. Alenka Vesel

Department of Surface Engineering and Optoelectronics, Jozef Stefan Institute, Jamova cesta 39, 1000 Ljubljana, Slovenia

### Deadline for manuscript submissions

closed (30 September 2020)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
