

Special Issue

Sustainable Monomers, Catalysts, Polymers and Polymer-Based Materials

Message from the Guest Editor

Sustainability has been recognized by both scientists and industrials as a priority research field, thus establishing itself as a standalone discipline in the last two decades. All chemists, engineers, physics, biologists, and materials scientists targeting the vast diversity of topics and subtopics related to the design and application of novel *Sustainable Monomers, Catalysts, Polymers, and Polymer-Based Materials* demonstrating sustainability aspects in their projects are welcome to send us their works. Topics of particular interest for this Special Issue devoted to *Sustainable Monomers, Catalysts, Polymers, and Polymer-Based Materials* include but are not limited to: - Design, synthesis, and characterization; - Natural renewable resources; - Wastes as reactants, reinforcements, and/or fillers; - Bio-based products, catalysts, polymers, blends, composites, hybrid materials; and Finally, both original research and review papers are welcome. Thus, I am delighted to invite you to contribute your work as a full paper, letter, communication, review, or perspective article.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
