

Special Issue

Biosecurity in Poultry

Message from the Guest Editors

Biosecurity in industrial poultry is considered one of the most important tools for preventing the introduction, development, and spread of both infectious and non-infectious diseases. It aims at promoting animal welfare through the proper and rational application of management practices throughout the entire poultry production chain: from hatchery, which represents the starting point to farming up to the end product. This Special Issue welcomes original articles and relevant reviews focusing on all subjects and management practises dealing with biosecurity from practical application up to legal considerations, feeding strategies, genetic selection, and advancements in diagnostics (as well as advances in poultry vaccination, since the flock immunity is the corner stone to cope disease occurrence).

About the Journal

Message from the Editor-in-Chief

Poultry is a newly established, online, open access journal that aims to publish high-quality research on topics in various areas of poultry production and health. This research should reflect the eminent and increasing importance of all poultry species reared for human nutrition. *Poultry* adheres to rigorous peer-review and editorial processes. Containing specialists from different areas in this field of research, the Editorial Board enthusiastically works to safeguard the quality of the review process and your contribution. A dedicated support team from the publisher is available, when required, to offer help and support for specific requests. Equipped with such a wide breadth of knowledge and expertise, *Poultry* should be the landmark for research on poultry science.

Editor-in-Chief

Prof. Dr. Michael Hess

Clinic for Poultry and Fish Medicine, Department for Farm Animals and Veterinary Public Health, University of Veterinary Medicine Vienna, Veterinärplatz 1, A-1210 Vienna, Austria

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

Journal Rank:

JCR - Q2 (Agriculture, Dairy and Animal Science) /
CiteScore - Q2 (Veterinary (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 34 days after submission; acceptance to publication is undertaken in 10.7 days (median values for papers published in this journal in the first half of 2025).
