Message from the Guest Editors

Dear Colleagues,

We cordially invite you to publish your relevant latest research in this Special Issue, either as a critical review or a research article. Based on your expertise and your recent publications, we believe that you would make a strong contribution to the technical content of our Special Issue.

This Special Issue will be dedicated to processes in biofuel production and biomass valorization, involving the following topics, among other possibilities: sustainable oxygenated and non-oxygenated biofuels, such as hydrogen, biogas, ethanol, biodiesel, green diesel, and sustainable aviation fuels; advanced biobased polymeric materials; furan derivatives from industrially available carbohydrate sources; biomass fractionation using advanced pretreatment technologies; bioprocess development and optimization; heterogeneous catalysis applied to biomass conversion; biorefineries.

We look forward to receiving your valuable contribution.

an Open Access Journal by MDPI

Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
