

Chemical Engineering – Environment, Sustainability and the Future

Guest Editors:

Prof. Dr. Ajay Kumar Ray

Department of Chemical and
Biochemical Engineering,
Thompson Engineering Building
(# 469), Western University,
London, ON N6A 5B9, Canada

Prof. Dr. Asim Kumar De

Department of Chemical
Engineering, University of
Calcutta, Kolkata 700073, India

Dr. Baisali Rajbansi

Department of Chemical
Engineering, University of
Calcutta, Kolkata 700073, India

Deadline for manuscript
submissions:

closed (5 March 2024)

Message from the Guest Editors

The world is changing faster than ever before, and technological advancement is the main driving force. For the successful operation of any industrial process or plant, particularly chemical and process ones, it has become essential to consider the social impacts on environmental and sustainability issues. The articles to be published in this Special Issue are selected articles that will be presented at the International Symposium on Chemical Engineering—Environment, Sustainability and the Future, 22-24 December 2023, to be held at the University College of Science & Technology, Kolkata, India. The International aims to bring together researchers, academicians, professionals, policymakers, scientists, industry delegates, research scholars, and UG/PG students from all over the world under one roof to interact, deliberate, share, and present their research work, ideas, and innovations related to recent advances in environment, energy, sustainability, and advanced materials.

an Open Access Journal by MDPI

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
