

Advance in Machine Learning

Guest Editors:

Dr. Konstantinos Demertzis

Prof. Dr. Lazaros Iliadis

Dr. Nikos Tziritas

Dr. Panayotis Kikiras

Deadline for manuscript
submissions:

closed (15 October 2021)

Message from the Guest Editors

Machine learning is filling the gaps between theory and practice and helps to change virtually every aspect of modern lives. Today, advance in machine learning algorithms accomplishes tasks to solving real-world problems that until recently only expert humans could perform.

In this Special Issue, we seek research and case studies that demonstrate the application of machine learning to support applied scientific research, in any area of science and technology. Example topics include (but are not limited to) the following topics applied to machine learning:

- New machine learning algorithms
- New optimization techniques
- Distributed machine learning systems and architectures
- New applications on real-time/big data analytics
- Intelligent applications
- Quantum machine learning
- Data and code integration
- Visualization of modern systems and networks
- High-throughput data analysis
- Comparison and alignment methods

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
