Deadline for manuscript  
submissions:

**31 October 2019**

### Message from the Guest Editors

In this Special Issue "Bioinformatics Applications Based On Machine Learning", we seek research and case studies that demonstrate the application of machine learning to support applied scientific research, in any area of bioinformatics. Example topics include (but are not limited to) the following topics applied to bioinformatics:

- New machine learning algorithms
- Distributed machine learning systems
- New applications on bioinformatics
- Health-care applications
- Bio imaging
- Next generation sequencing
- Data and software integration
- Visualization of biological systems and networks
- High-throughput data analysis
- Comparison and alignment methods

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

*Processes* (ISSN 2227-9717) provides an advanced forum for process/systems related research in chemistry, biology, materials and allied engineering fields. Our goals are to publish high impact articles of broad interest to the process systems community and to serve as a forum for major developments in process/systems research. The journal publishes regular research papers, communications, letters, short notes, and reviews. There are no restrictions on the length of published articles or on the use of color illustrations. All submitted manuscripts undergo rigorous peer review prior to publication.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** Indexed in the Science Citation Index Expanded (Web of Science) and Inspec (IET). Covered in *Scopus* from Vol. 5 (2017).

**Rapid publication:** Manuscripts are peer-reviewed, and a first decision is provided to authors approximately 14.1 days after submission; the process from acceptance to publication is undertaken in 5.3 days (median values for papers published in this journal in the whole of 2018).
