Message from the Guest Editor

In this Special Issue “Recent Advances in Sustainable Electrical Energy Technologies”, we seek innovative research and case studies that demonstrate the applications and advancements in clean energy technologies for sustainable development. The following topics are the main focus for this Special Issue on sustainable energy systems:

Renewable energy technologies, solar engineering, wind engineering, hydrogen energy technologies (electrolysis and fuel cells), energy efficiency, energy management systems, sustainable electrical energy systems, the intelligent operation of energy processes, smart grids, micro-grids, e-mobility, techno-economic of energy processes, electro-mechanical energy conversion processes, electrochemical energy conversion processes, modeling and control of sustainable energy systems and processes, etc.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
