Message from the Guest Editors

Dear Colleagues,

The Mediterranean Congress of Chemical Engineering (MeCCE) is a triennial event that has been taking place in Barcelona since 1978 in the framework of the trade fair EXPOQUIMIA. The event gathers at the premises of Fira de Barcelona chemical engineers from the academy and the industry visiting the industrial exhibition, presenting and sharing new ideas, and networking.

This Special Issue is coordinated with the 14th MeCCE Scientific Committee, and it includes selected papers from this conference. This Special Issue focuses on, but is not limited to, papers that align with the topics of the conference:

Advances and results in **chemical engineering science**:

- Chemical reactors and separation technologies;
- Processes intensification and process systems engineering;

their applications in:

- sustainable development and environmental engineering;
- food, biochemical and biomedical engineering;
- process and product engineering;

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/systems related research in chemistry, biology, materials and allied engineering fields. Our goals are to publish high impact articles of broad interest to the process systems community and to serve as a forum for major developments in process/systems research. The journal publishes regular research papers, communications, letters, short notes, and reviews. There are no restrictions on the length of published articles or on the use of color illustrations. All submitted manuscripts undergo rigorous peer review prior to publication.

Author Benefits

Open Access:—free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: Indexed in the **Science Citation Index Expanded** (Web of Science) and **Inspec (IET)**. Covered in **Scopus** from Vol. 5 (2017).

CiteScore (2019 Scopus data): **1.8**.
