Dental Engineering: Materials, Technologies and Devices for Dentistry 4.0

Guest Editors:

**Prof. Dr. Leszek Adam
Dobrzański**

Dr. Lech Bolesław Dobrzański

**Prof. Dr. Anna D. Dobrzańska-
Danikiewicz**

Dr. Joanna Dobrzańska

Deadline for manuscript
submissions:
closed (30 September 2023)

Message from the Guest Editors

In the case of dental engineering, a very important role is played by the correct material design in relation to the biomaterials used, as well as the dissemination of the application of additive technologies for the manufacturing of implants, prosthetic restorations, and additional equipment used in clinical practice, including surgical templates and accessories facilitating the assembly of implants. The use of nanotechnology, e.g., in the use of nanostructured or nanocomposite materials, and the use of nano coatings, e.g., using the atomic layer deposition ALD methods as well as nanodots is worth considering. The intention of the editors of this Special Issue is to compile a very wide collection of studies that can be treated as a kind of compendium of modern dental engineering. We invite you to participate in co-creating this ambitious project.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
