

The Amazing World of Peptide Engineering

Guest Editors:

Dr. Kenji Usui

Faculty of Frontiers of Innovative
Research in Science and
Technology (FIRST), Konan
University, Chuo-ku, Kobe 650-
0047, Japan

Prof. Dr. Kin-ya Tomizaki

Department of Materials
Chemistry, Ryukoku University,
Seta, Otsu 520-2194, Japan

Deadline for manuscript
submissions:

30 August 2024

Message from the Guest Editors

This Special Issue will collect high-quality research papers and mini reviews compiling methodology, know-how, and techniques from different research groups, as well as reviews pertaining to the current trends and developments in the fields of peptide engineering and addressing the solutions for biological/chemical/medical/industrial concerns encountered. Topics of interest include but are not necessarily limited to the following:

- Peptide chemistry: synthetic methods, purification methods, methods for phage display, peptide library, self-assembly;
- Pharmaceuticals: drugs, prodrugs, drug delivery system, structure–activity relationships;
- Materials/biomaterials/organic–inorganic composites: hydrogels, biomineralization, fibers, materials for regenerative medicine, antibacterial, cell adhesion;
- Bioprocess: modifications of enzymes, artificial enzymes, catalytic mechanisms, fermentation, separation;
- Engineering: diagnostic systems, chemical analytical systems, bioanalytical systems, molecular machine/robotics.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
