

Simulation, Optimization and Application of Welding Process

Guest Editors:

Dr. Qian Zhi

School of Materials Science and Engineering, Hunan University of Science and Technology, Xiangtan 411201, China

Dr. Rogante Massimo

Rogante Engineering Office, 62012 Civitanova Marche, Italy

Deadline for manuscript submissions:

closed (31 May 2024)

Message from the Guest Editors

This Special Issue will provide readers with the latest progress in the simulation, optimization, and application of welding processes in materials, ranging from fundamentals to phenomena, from the macro- to the micro-scale.

Contributing papers are solicited in the following areas:

- Numerical modeling of welding processes;
- Simulation and experimental studies of welding processes;
- Investigations into the temperature field and welding mechanisms;
- Optimization of welding processes;
- Application of welding processes in specific situations.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
