Message from the Guest Editors

The aim of this Special Issue on “Green particle technologies : processes and applications” is to uncover the most recent advancements in the development of green particle technologies, seeking novel contributions in, but not limited to, the following areas:

- Green processes on the synthesis and formation of particles;
- Green processes on the modification of particles;
- Green processes of particle handling and operations;
- The use of green materials in particle-related products;
- The application of particle technology in the production of green products;
- Processes on treatment of waste/harmful particles;
- New characterization methods, techniques and indications towards green particulate materials and products.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus,
SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
