Technology, Dalian 116023,
China

Message from the Guest Editor

This Special Issue on “Internal Combustion Engine Combustion Processes” aims to curate novel advances in the development and application of low-carbon, carbon-neutral and carbon-free fuels to internal combustion engines, and in the development and application of novel combustion techniques with traditional fossil fuels. Topics include, but are not limited to:

- Fuel injection systems and processes for carbon-neutral and carbon-free fuels;
- Atomization and spray processes of carbon-neutral and carbon-free fuels;
- Development of combustion mechanisms for carbon-neutral and carbon-free fuels;
- Innovative combustion processes with traditional fuels;
- Optical diagnostics and numerical simulation for flow, spray and combustion processes in internal combustion engines;
- Emission control technology and equipment for carbon-neutral and carbon-free fuels;
- Abnormal combustion suppression technologies for carbon-neutral and carbon-free fuels.

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
