Novel Recovery Technologies from Wastewater and Waste

Guest Editors:

Dr. Miguel Andrés Peluso

Laboratorio UPL (CICPBA-UNLP),
M.B. Gonnet, Buenos Aires,
Argentina

Dr. María Victoria Gallegos

Centro de Investigación Y
Desarrollo en Ciencias Aplicadas,
CIC-CONICET-UNLP, La Plata,
Argentina

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editors

This Special issue will focus on new and emerging technologies for recovering resources from wastewater and waste that can reduce environmental impact and promote a more efficient resource use.

We welcome submissions on a wide range of topics related to resource recovery technologies, including, but not limited to, adsorption, membrane filtration, electrochemical processes, biotechnology, pyrolysis, and nanotechnology. We are particularly interested in research that provides innovative solutions to the challenges of wastewater treatment and waste management.

We encourage authors to submit original research articles, reviews, and perspectives that highlight the latest advances and challenges in the field of resource recovery. All submitted papers will undergo thorough peer review to ensure the highest standards of quality and scientific rigor.

We look forward to receiving your contributions and publishing groundbreaking research that will shape the future of resource recovery in the years to come.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
