

Basic, Biological and Therapeutic Processes of Ozone Therapy

Guest Editors:

Prof. Dr. Gregorio Martínez-Sánchez

President of the International Scientific Committee of Ozone Therapy (ISCO3), Avenida Juan Andrés 60, local 1 bajo, 28035 Madrid, Spain

Dr. Bernardino Clavo

1. Research Unit, Chronic Pain Unit and Radiation Oncology, Dr. Negrín University Hospital, Las Palmas (Canary Islands), Spain
2. University Institute for Research in Biomedicine and Health (UIBS), Molecular and Translational Pharmacology (BIOPHARM) Group, University of Las Palmas de Gran Canaria, Las Palmas, Spain

Deadline for manuscript submissions:

closed (30 November 2021)

Message from the Guest Editors

Ozone therapy is a complementary medical treatment that uses an oxygen–ozone mixture. It is part of the techniques of new technologies that complement and facilitate conventional treatments. It is another tool in the medical arsenal of the physician and has to be practiced as a complementary, adjunctive or palliative treatment for various diseases. Ozone therapy is a medical act and should be practiced by medical doctors and implemented with scientific rigor. Currently, in the MedLine (Pub Med) database, there are 3329 papers relating to ozone therapy, of which 251 are clinical trials, 169 randomized controlled trials, 24 systematic reviews, and 18 meta-analysis studies, supporting the use of ozone in medicine.

Topics include but not are limited to:

- Preclinical research involved in ozone applications;
- Clinical research, including case reports;
- Reviews including current status and remaining challenges in ozone therapy;
- Description of processes or clinical protocols of ozone application following good clinical practice.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
