Biological and Environmental
Engineering, Universitat
Autònoma de Barcelona,
Bellaterra, 08193 Barcelona,
Spain

Deadline for manuscript
submissions:

5 August 2024

Message from the Guest Editor

This Special Issue “Application of Biochar in Environmental Research” is intended to compile recent research on the production and characterization of biochar to be used in a wide range of environmental applications. Potential topics include, but are not limited to, the following:

- The pyrolysis of organic waste
- Biochar characterization
- Water cleaning using biochar
- Wastewater treatment using biochar
- Enhanced composting with biochar
- Enhanced anaerobic digestion with biochar
- Crop improvement with biochar fertilization
- Heterogenous catalysis using biochar-based catalysts for environmental applications
- The combination of biochar with nanomaterials for environmental applications

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
