Message from the Guest Editors

The main aim of this Special Issue is to provide a platform for the dissemination and discussion of recent research and achievements on particulate-filled advanced composites which address various issues from theoretical and practical viewpoints. Articles on theoretical as well as experimental investigations are welcome.

Topics include but are not limited to:

- Development of novel polymeric particulate composites and syntactic foams;
- Manufacturing and properties of advanced particulate composites;
- Static and dynamic behaviours of polymeric particulate composites;
- Particulate-filled shape memory polymer composites;
- Acoustic emission diagnostics of polymeric particulate composites;
- Recycling of polymeric particulate composites.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
