closed (30 April 2022)

Message from the Guest Editors

This Special Issue titled “Biological Activity Evaluation Process of Natural Antioxidants” aims to curate novel advances in the development and application of methods for the biological activity evaluation of natural antioxidants. Topics include but are not limited to:

- Development of new methods for the antioxidant activity evaluation of natural resources.
- Improvement of existing methods for the antioxidant activity evaluation of natural resources to increase the efficiency and precision of evaluation.
- Exploring new antioxidant actions of natural resources.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
