Message from the Guest Editors

In this Special Issue, we seek to include comprehensive review papers, methodologies, experimental works, and modeling research articles that could improve our understandings from various disciplinary in processing of energy and natural resources. Potential topics include but are not limited to process intensification and integration for sustainable development, alternative and renewable energy, biomass energy, environment, catalytic reaction engineering, carbon capture and utilization (CCU), and climate change.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.
Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
